

# CLEAN GREEN TASMANIA – THE SECRET OF OUR SUCCESS

Tasmania is a prosperous island that is located  
240 kilometres off the south east coast of Australia.

Tasmania is a natural paradise that offers a largely untouched and natural environment with more than 40% of its land covered by natural parks, lush greenery, unique animals and plants.

## NATURALLY GREEN

It is this pristine location and seclusion that has helped Tasmania be recognised as having the cleanest air, pure waters and rich fertile soil. Tasmania has 90% of the state's completely renewable energy sources. It is this natural environment that fosters the best growing conditions for all food products.

## BIOSECURITY

Tasmania has an environment free from the major diseases, pests and environmentally dangerous conditions that affect many other food producing countries of the world.

The island of Tasmania is where our producers live and work to produce an optimum range of Premium products for Produce of Heaven.

Produce of Heaven selects the best products from our land and waters to offer to the world a taste of heaven.

## HEALTH BENEFITS

Our POH Seafood contains many vitamins and minerals which include:

### VITAMIN B3:

Essential for enzyme production. POH Seafood is filled with niacin which is essential for the release of energy and to maintain healthy skin and digestive tract.

### IRON:

Iron is critical for energy production and maintaining optimum physical performance

### OMEGA-3 MARINE OILS:

Are proven to help conditions such as heart disease, high blood pressure, diabetes, arthritis and depression.

POH Seafoods, including fish, also contain protein, vitamin A, a range of B vitamins and vitamin D as well as the minerals calcium, copper, iron, magnesium, manganese, phosphorus, potassium, selenium, iodide and zinc.

Tasmania's producers do not use the chemicals that are routinely applied to food in other regions. As the food is GMO free and not reliant on artificial hormones and antibiotics, we produce safe, clean and natural food.

# PRODUCE OF HEAVEN – FOOD FROM THE EDGE OF THE RAINFOREST

**Produce of Heaven represents some of the finest produce in the world and it's delivered to you straight from our beautiful pure island off Australia's mainland - Tasmania.**

Produce of Heaven is unique in that it has the best of local foods in each range of quality products. We provide a range of gourmet goods that aim to satisfy the most discerning customer.

## WHY PRODUCE OF HEAVEN SEAFOOD?

**Tasmania's pristine coastal waters are home to the Produce of Heaven seafood that is prized the world over for its superior quality and freshness.**

Tasmania enforces strict quarantine regulations to maintain a disease-free and pollution free environment. Because our waters are so clean and untouched we produce some of the highest quality and best tasting seafood around the world. Tasmania is also well known for unique and popular seafood varieties of Abalone, Southern Rock Lobster and Tasmanian Atlantic Salmon.

### Our seafood:

- Is produced in pristine and pollution free waters of Tasmania
- Thrives in the vast cool waters of the Great Southern Ocean and is further enriched through the nutrient full fresh tannin waters flowing from the mountain's of Tasmania's world heritage listed Wild Rivers National Park
- Is controlled through all major elements of the production chain ensuring a high quality product and continuity of supply
- Breeding stock is nurtured and their offspring carefully reared and hand graded
- Our Seafood is an excellent source of essential nutrients and vitamins of vitamin B3, Iron and Omega-3 marine oils

Produce of Heaven selects the best seafood from our pristine, clean and pollution free waters to offer to the world a little taste of heaven.
